Hi Tariq,

Per our conversation earlier today, the reconstruction of the single family residence at 807 E Chase Drive would be exempt from paying Development Impact Fees per City of Corona Municipal Code Section 16.23.010(B)(5). It would also be exempt from paying TUMF per CMC Section 16.21.040 (F)(4) provided that the original structure was in place as of January 1, 2000. The dwelling would also get credit for any water and sewer connection fees that have been paid.

Thanks,

Michele
